

Lyrics for the Songs on

**CHIP & THE
CHARGEUPS**

WHAT HAPPENED TO THE BOY NEXT DOOR?

Paying Back the Devil

I'm paying back the devil

I peel my lips up off the street
I shake the stones right out from under my eyebrows
I check the mirror to count my teeth
And stain the sink with drops of crimson from my mouth

I believe in getting even
And I will seize my moment

I'm coming for you like I'm paying back the devil
I'm living in hell with a score I gotta settle
One thing's for sure, I'll be back for more, gonna turn one battle into all out war
I'm coming for you like I'm paying back the devil
I'm paying back the devil

I have survived your flames and heat
Can't stand up to my rage and my fury
Time to cash in this receipt
I'm scorned and it's your turn to be sorry

I believe in getting even
And I will seize my moment

I'm coming for you like I'm paying back the devil
I'm living in hell with a score I gotta settle
One thing's for sure, I'll be back for more, gonna turn one battle into all out war
I'm coming for you like I'm paying back the devil
I'm paying back the devil

(To forgive is divine)
But revenge is sweeter
But revenge is sweeter
Revenge is sweeter

I'm coming for you like I'm paying back the devil
I'm living in hell with a score I gotta settle
One thing's for sure, I'll be back for more, gonna turn one battle into all out war
I'm coming for you like I'm paying back the devil
I'm paying back the devil
I'm paying back the devil
Yeah, yeah, yeah

Maleena Made Us Change the Name of this Song to Fit in with the Pop-Punk Community

Four whisky bottles lay on the carpet
My longish hair a tangled mess
My shirt stained underneath the armpits
And you don't wanna smell my breath, no

I got a new neighbor, just the perfect flavor
I would like to make her mine

I wanna be the boy next door to the girl next door
If I get my act together, it'll be something she can't ignore
I wanna be the boy next door to the girl next door
She'll tell me I clean up nicely and I'm the one that she adores
I'm the boy next door

I'll still use this rusty razor
These old khakis held up well
I'll bake her a batch of cookies
And look my best when I ring her bell, yeah

I got a new neighbor, cleanliness may sway her
I really need to make her mine

I wanna be the boy next door to the girl next door
If I get my act together, it'll be something she can't ignore
I wanna be the boy next door to the girl next door
She'll tell me I clean up nicely and I'm the one that she adores
I'm the boy next door

Then we'll mosh...psych

I wanna be the boy next door to the girl next door
If I get my act together, it'll be something she can't ignore
I wanna be the boy next door to the girl next door
She'll tell me I clean up nicely and I'm the one that she adores
I wanna be the boy next door to the girl next door
If I get my act together, it'll be something she can't ignore
I wanna be the boy next door to the girl next door
It'll be just like Billy sang, she'll cry "More, more, more"
For the boy next door
I'm the boy next door

Ultra-Legendary

Tonight is our night, we'll make it tight, we'll make this night ultra-legendary
Fight for what's right, we'll make it tight, we'll make this night ultra-legendary

We watch the sun go down
We crack our knuckles loud
We wear our war paint proud
No one can stop us
We will not be denied
Releasing what's inside
The meek will run and hide
No one can stop us
Take a look into these steel eyes
They reflect the ultimate prize
Let me say a word to the wise
Stay out of our way

Tonight is our night, we'll make it tight, we'll make this night ultra-legendary
Fight for what's right, we'll make it tight, we'll make this night ultra-legendary
Woah, oh, oh, oh, we'll make this night ultra-legendary
Woah, oh, oh, oh, we'll make this night ultra-legendary

Relentless from the start
We came to leave our mark
Our sleeves are stitched with hearts
No one can stop us
Carved into history
Will be our names to see
For this, we bleed and breathe
No one can stop us
We're a wolfpack, we are a tribe
All for one, we would lay down our lives
Let me scream a word to the wise
Stay out of our way

Tonight is our night, we'll make it tight, we'll make this night ultra-legendary
Fight for what's right, we'll make it tight, we'll make this night ultra-legendary
Woah, oh, oh, oh, we'll make this night ultra-legendary
Woah, oh, oh, oh, we'll make this night ultra-legendary

Four, three, it's you, it's me
Horns up high will be our code
Two, one, the countdown's done
We're ready to explode, ready to explode

Tonight is our night, we'll make it tight, we'll make this night ultra-legendary
Fight for what's right, we'll make it tight, we'll make this night ultra-legendary
Tonight is our night, we'll make it tight, we'll make this night ultra-legendary
Fight for what's right, we'll make it tight, we'll make this night ultra-legendary
Woah, oh, oh, oh, we'll make this night ultra-legendary
Woah, oh, oh, oh, we'll make this night ultra-legendary

Sideways Middle Finger

Every single day, someone finds a way
To make me lose my mind, woah
Then as if on cue, I encounter you
You make me lose my mind, woah
Straight up's not enough
A quarter turn, twice the burn

I got the urge to show you a sideways middle finger
Don't matter if I don't know you, here's a sideways middle finger
I'll raise one on the left, raise one on the right
Raise 'em in the morning and I'll raise 'em all night, yeah
I got the urge to show you a sideways middle finger

Now you're back again, couldn't take a hint
You're gonna see it this time, woah
Let me make this clear, you're not welcome here
You're gonna see it this time, woah
Straight up's not enough
A quarter turn, twice the burn

I got the urge to show you a sideways middle finger
Don't matter if I don't know you, here's a sideways middle finger
I'll raise one on the left, raise one on the right
Raise 'em in the morning and I'll raise 'em all night, yeah
I got the urge to show you a sideways middle finger
A sideways middle finger

The feeling's done being kept inside
Today's the day we let it all fly
Turn it on its side, it gets multiplied, yeah
The feeling's done being kept inside
Today's the day we let it all fly
Turn it on its side, it gets multiplied, yeah

I got the urge to show you a sideways middle finger
Don't matter if I don't know you, here's a sideways middle finger
I'll raise one on the left, raise one on the right
Raise 'em in the morning and I'll raise 'em all night, yeah
I got the urge to show you a sideways middle finger
A sideways middle finger

Married in White, Buried in Black

First your name and then your number
Discovering you like pots of gold
Thankful for the rainbow I'm under
Take me home and let's grow old

And I'm thinkin' 'bout the future that we may have

I can see us married in white and buried in black
We're inseparable, so adorable, yeah, we're rad, rad, rad
I can see us married in white and buried in black
We're incredible, so eternal and we're rad
We're rad, rad, rad

Ain't no checkered flag in my sights
This race of ours goes on and on
And when this world has the last of its nights
I picture you still in my arms

And I'm thinkin' 'bout the future that we may have

I can see us married in white and buried in black
We're inseparable, so adorable, yeah, we're rad, rad, rad
I can see us married in white and buried in black
We're incredible, so eternal and we're rad
We're rad, rad, rad

Ashes to ashes, mud to mud
From angel wings to flesh and blood
Matching caskets, we're not done
Forever in love

I can see us married in white and buried in black
We're perpetual, it's unbelievable and we're rad

I can see us married in white and buried in black
We're inseparable, so adorable, yeah, we're rad, rad, rad
I can see us married in white and buried in black
We're incredible, so eternal and we're rad....We're rad, rad, rad

Welcome to the Neighborhood

The door's ajar, come right in
Get prepared for your new life to begin
Once you're here, you'll never leave
This is your church and you can call me priest

Welcome to the brotherhood, sisterhood
Welcome to the neighborhood of rock and roll
I said welcome to the brotherhood, sisterhood
Welcome to the neighborhood of rock and roll

Roll your sleeve, accept the mark
Show the world that you've joined the side that's dark
We unite, our bond is strong
Wherever rock is, you're somewhere you belong

Welcome to the brotherhood, sisterhood
Welcome to the neighborhood of rock and roll
I said welcome to the brotherhood, sisterhood
Welcome to the neighborhood of rock and roll
Woah, oh, oh, woah, oh, oh, welcome to the neighborhood of rock and roll
Woah, oh, oh, woah, oh, oh, welcome to the neighborhood of rock and roll

Welcome to the brotherhood, sisterhood
Welcome to the neighborhood of rock and roll
Welcome to the brotherhood, sisterhood
Welcome to the neighborhood of rock and roll
Woah, oh, oh, woah, oh, oh, welcome to the neighborhood of rock and roll
Woah, oh, oh, woah, oh, oh, welcome to the neighborhood of rock and roll
Welcome to the neighborhood
Welcome to the neighborhood
Welcome to the neighborhood
